Reduce Chemical Use:

Non-Toxic Alternatives to Household Cleaners

Some household cleaners contain chemicals that are toxic to humans, animals, and the environment. By using non-toxic alternatives to these household cleaners, you can reduce exposure to these chemicals and keep them out of the environment. Here are some common household products that act as effective substitutes to chemical cleaners:

- Baking soda – Cleans, deodorizes, and scours
- White vinegar – Cuts grease, removes mildew and wax build-up, and kills weeds
- Lemon – Kills household bacteria and removes odors
- Cornstarch – Polishes furniture and removes stains from carpets and rugs
- Washing soda – Removes laundry stains and cleans walls, tiles, sinks, and tubs
- Unscented Soap – All-purpose household cleaner
