New Electronic Payment Service - Paymentus
As of April 30, 2018, BWSC began offering its customers a new electronic payment service, Paymentus. Customers who use electronic payment to pay their water and sewer bills on www.bwsc.org will see enhanced options with our new provider.

BWSC no longer offers MyCheckFree for online bill payments as of April 30, 2018. Customers who wish to pay online will need to register with Paymentus to continue seamless electronic billing payments.

Registering with Paymentus is easy. It only takes a few minutes to sign up for this online service and there is no processing fee. Paymentus is one of the leading electronic payment providers in the country. Founded in 2004, they serve utilities, insurance providers, financial services firms, hospitals, and government agencies.

With the growth of options for electronic bill payments, customers may opt to use services through their banks or other financial institutions. Please contact these institutions directly if this is your preference for bill payments.

All BWSC customers will continue to receive a paper bill. If you mail a check as payment, or visit one of our neighborhood sites or our headquarters to pay your bill, these options remain available to our customers. If you have any questions, please contact BWSC’s Customer Service Department at 617-989-7800.

May is Older Americans Month
To celebrate, Boston Water and Sewer Commission encourages residents to check their eligibility for a 30% discount on the water portion of their bill. You are eligible if you are a homeowner and are 65 years of age and older, or fully disabled, live in a 1-4 family home, or reside in a property held in a qualified trust and meet all of the above requirements. Call BWSC Customer Service for more information: (617) 989-7800 or visit one of BWSC’s Neighborhood Site Visit Locations. May and June site visit information is listed on back.
City of Boston

  58 Dana Ave
- **July 14 – Brighton**
  Brighton Public Works Yard
  315 Western Ave

Don’t dump hazardous waste products, such as motor oil, paint and other chemicals into catch basins. They drain directly to local waterways.

World Water Day

BWSC celebrated World Water Day on March 22nd. This year’s theme focused on green infrastructure and how it can bring solutions to water challenges we face in the 21st century. BWSC took to social media, highlighting current green infrastructure projects in Boston geared towards minimizing stormwater pollution. The fun continued into the weekend with our environmental partners at the New England Aquarium. With the help of the Live Blue program, we engaged with children and adults in a day full of activities, games, and giveaways to highlight the importance of water.

Scoop the Poop!

Prevent contamination of local waterways by picking up after your dog. When left on the street, pet waste can be carried by rain or melting snow into catch basins, which drain directly to local waterways such as the Charles, Neponset, Mystic and Muddy rivers and Boston Harbor.

For more information on protecting Boston’s Waterways, visit BWSC’s website: www.bwsc.org
