## **INDEPENDENT AUDITORS' REPORT**

To the Commissioners of  
Boston Water and Sewer Commission  
Boston, Massachusetts

### **Report on the Financial Statements**

We have audited the accompanying financial statements of Boston Water and Sewer Commission (the "Commission"), which comprise the statements of net position for the year ended December 31, 2019 and 2018, the related statements of revenues, expenses and change in net position and cash flows for the years then ended, and the related notes to the financial statements, which collectively comprise the Commission's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Boston Water and Sewer Commission as of December 31, 2019 and 2018, and the respective change in net position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis and the required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Government Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historic context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries with management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Supplementary Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Boston Water and Sewer Commission's basic financial statements. The accompanying supplemental schedules of revenues and expenses on page 55 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements.

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated August 3, 2020 on our consideration of Boston Water and Sewer Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Boston Water and Sewer Commission's internal control over financial reporting and compliance.

## **BOSTON WATER AND SEWER COMMISSION**

Management's Discussion and Analysis

Required Supplementary Information

December 31, 2019 and 2018

(Unaudited)

### **Overview**

Upon its creation in 1977, Boston Water and Sewer Commission (the "Commission") assumed the responsibility to provide water distribution, wastewater collection and storm water drainage services in the City of Boston (the "City").

The Commission has realized a rate basis surplus from its operation in each year since its inception. In accordance with the Boston Water and Sewer Reorganization Act of 1977 (the Enabling Act), the Commission applies audited surpluses to reduce its rates in succeeding years.

To accommodate the rate making process, the Commission follows the accounting standards set forth in Governmental Accounting Standards Board Statement No. 62 ("GASB 62"), *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. GASB 62 allows certain (a) revenues provided for future allowable costs to be deferred until the costs are incurred (deferred credits) and (b) costs incurred to be capitalized if future recovery is reasonably assured (deferred charges).

### **Overview of the Financial Statements**

The Commission's financial statements comprise two primary components: 1) the financial statements and 2) the notes to the financial statements. Additionally, the financial statements focus on the Commission as a whole, rather than upon individual funds or activities.

***The Financial Statements:*** The financial statements are designed to provide readers with a broad overview of the Commission finances and are comprised of three basic statements.

The *Statements of Net Position* presents information on all of the Commission's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference reported as *net position*.

The *Statements of Revenues, Expenses and Changes in Net Position* presents information showing how the Commission's net position changed during the most recent fiscal year.

The *Statements of Cash Flows* is reported on the direct method. The direct method of cash flow reporting portrays net cash flows from operations as major classes of operating receipts and disbursements.

The financial statements can be found on pages 10 through 12 of this report.

***Notes to the financial statements:*** The notes provide additional information that is essential to a full understanding of the data provided in the financial statements. The notes provide information regarding both the accounting policies and procedures the Commission has adopted as well as additional detail of certain amounts contained in the financial statements. The notes to the financial statements can be found on pages 13 through 46 of this report.

### Management's Discussion and Analysis

#### Required Supplementary Information

December 31, 2019 and 2018

(Unaudited)

Condensed financial information for the most recent fiscal years is presented in this section of the report.

#### Condensed Financial Information

(in thousands)

	<u>2019</u>	<u>2018</u>	<u>2017</u>
Current assets	\$ 323,923	332,759	304,384
Capital assets, net	1,445,700	1,416,709	1,377,447
Total assets	<u>1,769,623</u>	<u>1,749,468</u>	<u>1,681,831</u>
Total deferred outflows	<u>99,774</u>	<u>122,720</u>	<u>47,235</u>
Current liabilities	79,515	61,726	84,338
Noncurrent liabilities	630,154	671,319	548,106
Total liabilities	<u>709,669</u>	<u>733,045</u>	<u>632,444</u>
Total deferred inflows	<u>764,291</u>	<u>747,028</u>	<u>706,348</u>
Net position:			
Net investment in capital assets	843,382	800,309	823,307
Restricted	113,573	111,813	105,601
Unrestricted net deficit	<u>(561,518)</u>	<u>(520,007)</u>	<u>(538,634)</u>
Total net position	<u>\$ 395,437</u>	<u>392,115</u>	<u>390,274</u>

During the year, the Commission saw an increase in total assets and a decrease in total liabilities, resulting in an increase in total net position of \$3.3 million, or 0.9%. In 2018, net position totaled \$392.1 million, an increase of \$1.8 million, or 0.4% from 2017. The Commission's 2019 operations resulted in a rate basis surplus of \$689,553 compared to \$558,206 in 2018.

Since inception, the Commission has invested in various capital assets, including capital improvement projects, machinery and equipment, buildings, and improvements. These investments, net of accumulated depreciation, totaled \$1.4 billion at December 2019, which is 2.0% higher than in 2018. In 2018, these investments also totaled \$1.4 billion, an increase of \$39.3 million, or 2.9% over the 2017 total investment in capital assets. These increases in capital assets are the result of continuous upgrades of the Commission owned water and sewer infrastructure.

Total operating revenues in 2019 were \$386.6 million, which is 1.8% greater than in 2018. Total operating revenues in 2018 were \$379.9 million, which is 4.6% greater than 2017. Operating revenues consist of water and sewer revenue, late charge revenue, fire pipe revenue and other income. Water and sewer revenue in 2019 and 2018 represented 95.7% and 96.7% of total operating revenues, respectively. The increases in 2019 and 2018 operating revenues were primarily driven by a 2.85% and 4.75% average rate increase, respectively.

## BOSTON WATER AND SEWER COMMISSION

### Management's Discussion and Analysis

#### Required Supplementary Information

December 31, 2019 and 2018

(Unaudited)

Total operating expenses in 2019 were \$350.6 million, which represents an increase of 3.5% from 2018. The increase in 2019 operating expenses was primarily due to a combined additional spending of 3.2%, or \$9.9 million in three-line items (operations, maintenance and Massachusetts Water Resources Authority ("MWRA") assessment). Total operating expenses in 2018 were \$339.0 million, which represents an increase of 5.2% from 2017. This increase in 2018 expenses was driven primarily due to a combined additional spending of 5.0%, or \$15.0 million in three-line items (operations, maintenance and Massachusetts Water Resources Authority ("MWRA") assessment). Operating expenses consist of operations and maintenance, MWRA assessment, depreciation and amortization. The MWRA assessment is the largest expense incurred by the Commission, representing 67.3% and 67.0% in 2019 and 2018, respectively, of total operating expenses.

In both 2019 and 2018, 85% of water provided by MWRA was billable to customers. Since its inception, the Commission has maintained the percentage of billable water at 78% and is continuing to take steps to improve the amount of billable water, including replacement of old and defective meters and implementation of a comprehensive leak detection and repair program.

**BOSTON WATER AND SEWER COMMISSION**

Management's Discussion and Analysis

Required Supplementary Information

December 31, 2019 and 2018

(Unaudited)

**Capital Assets**

In fiscal year 2019, major Commission project additions totaled \$40.3 million, of which \$18.0 million was financed with bond proceeds. Major project expenditures (in millions) are as follows:

Relay of water mains	\$ 19.4
Rehabilitation/replacement of sewers or storm drains	15.3
Interceptor improvements	0.5
Separation of combined sewers	2.7
Meter replacement	0.6
Stormwater	1.8
	<u>\$ 40.3</u>

The Commission's 2020-2022 capital budget includes projected expenditures of \$221.0 million for infrastructure and capital projects. The major projects are for the rehabilitation of water mains and the replacement/rehabilitation of the sewer system. Some water projects are financed on a pay-as-you go basis combined with interest free loans for water rehabilitation provided by the MWRA. Most of the sewer improvements along with the installation of a new radio frequency meter reading system will be financed through bond proceeds. However, there are sewer improvements that are funded through the utilization of the MWRA loan programs. Please refer to footnote 4 for more detailed capital asset activity.

**Debt Plan**

The Commission is empowered by the Enabling Act to issue bonds and notes payable solely constituted on the general obligation of the Commission. The Commission has no legal restrictions concerning the amount of debt, which it may have outstanding, subject to the coverage requirements described below.

The Commission Issues General Revenue Bonds to finance portions of its capital improvement projects. The Commission's 2020-2022 capital budget, which totals \$221.0 million, anticipates that projects totaling \$117.3 million, or 53.1% of the Commission's 2020-2022 capital budget, will be funded from bond proceeds. The 2020 budget for debt service is \$52.5 million. Please refer to footnote 5 for more detailed long-term debt information.

## BOSTON WATER AND SEWER COMMISSION

### Management's Discussion and Analysis

#### Required Supplementary Information

December 31, 2019 and 2018

(Unaudited)

The Commission currently has ten series of General Revenue Bonds outstanding at the end of 2019, totaling approximately \$517.2 million as follows (in millions):

1994 Series A	12.7
2009 Series A	0.7
2009 Series B	7.5
2010 Series A	5.4
2012 Series A	96.5
2014 Series A	99.7
2015 Series A	72.8
2016 Series A	60.2
2016 Series B	83.5
2018 Series A	78.4
	<u>\$ 517.2</u>

#### Debt Service Coverage Requirements

The Commission's bond covenants require that rates and charges be at least sufficient to provide revenues (i) to pay all current expenses of the Commission, (ii) to pay the principal of, premium if any, and interest on all bonds issued by the Commission as they become due and payable, (iii) to create and maintain such reasonable reserves as may be reasonably required by any trust agreement or resolution securing bonds, (iv) to provide funds for paying the cost of all necessary repairs, replacements and renewal of the systems and (v) to pay or provide for any and all amounts which the Commission may be obligated to pay or provide for by law or contract. The Commission is also required to establish and maintain rates and charges at levels sufficient so that total net revenues in each year during which bonds are outstanding will equal at least 125% of (1) the bond debt service requirement during such year less (2) the amount, if any, of bond proceeds available to pay interest becoming due in such year on bonds outstanding as of the first day of such year. The Commission has exceeded the 125% debt service coverage requirement of the Resolution in each year since its inception in 1977.

#### Additional Bonds and Refunding Bonds

The Enabling Act permits the issuance of additional bonds for paying the cost of any project, making deposits in various funds established under the Enabling Act, paying costs of issuance, paying the principal, premium and interest on any notes issued in anticipation of additional bonds, or any combination of the above.

Refunding bonds may also be issued by the Commission only upon certifying that the aggregate debt service in each fiscal year in which Refunding Bonds are outstanding will not be increased because of the issuance of the Refunding Bonds; provided that, in lieu of such certification, the Commission may deliver to the Trustee certificates satisfying the conditions described above for the issuance of additional bonds.

## **BOSTON WATER AND SEWER COMMISSION**

Management's Discussion and Analysis

Required Supplementary Information

December 31, 2019 and 2018

(Unaudited)

### **Budgets and Rates**

The Commission is required by law to be self-sustaining to set its rates at a level sufficient to cover expenses and debt service requirements each year.

In 2006 the Commission modified its inclining block rate structure. The number of rate blocks was reduced from ten to six, thereby making the structure easier to understand for customers while still promoting water conservation and generating sufficient revenue. In 2019 and 2018, the Commission increased its water and sewer rates by an average of 2.85% and 4.75% respectively. The major reasons behind these increases were: (i) the increase in assessment paid to the MWRA, and (ii) the decline in water sales due to general water conservation efforts of individuals and businesses throughout the City.

Effective January 1, 2020, the Commission increased its water and sewer rates by an average of 7.90%.

### **Credit Ratings**

The Commission's revenue bonds are rated "Aa1" by Moody's Investors Service, "AA+" by Standard and Poor's and "AA+" by Fitch Ratings for all bonds issued before 2016.

### **Contacting the Commission's Financial Management**

This report is designed to provide our bondholders, customers and other interested parties with a general overview of the Commission's finances and to demonstrate the Commission's accountability for the revenue it receives. If you have questions about this report or need additional information, contact Boston Water and Sewer Commission Finance Department in writing at 980 Harrison Avenue, Boston, MA 02119, or by telephone 617-989-7000, or on the web at [www.bwsc.org](http://www.bwsc.org).

## BOSTON WATER AND SEWER COMMISSION

Notes to Financial Statements

December 31, 2019 and 2018

### (1) Organization, Basis of Presentation, and Summary of Significant Accounting Policies

Boston Water and Sewer Commission (the "Commission") has the responsibility to provide water and wastewater services on a fair and equitable basis in the City of Boston (the "City") as required under the Boston Water and Sewer Reorganization Act of 1977 (the "Enabling Act").

Under the Enabling Act, the Commission is subject to regulation with respect to rates, accounting and other matters, where applicable, by the board of commissioners (the "Board"). The Board is appointed by the City's Mayor, subject to confirmation by the City Council. It regulates the rates that the Commission can charge its customers for water and sewer usage. The rates charged to customers are based on the cash requirements to cover the Commission's operations, debt service, and reserve contributions. To comply with the external financial reporting requirements of the Board, the accompanying financial statements are presented on a basis that is consistent with United States of America generally accepted accounting principles ("GAAP") for regulated utilities (i.e., the accrual basis of accounting and the capital maintenance measurement focus).

To accommodate the rate-making process, the Commission follows the accounting standards set forth in Governmental Accounting Standards Board Statement No. 62 ("GASB 62"), *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. GASB 62 allows certain Board-approved (a) revenues provided for future allowable costs to be deferred until the costs are incurred (deferred credits) and (b) costs incurred to be capitalized if future recovery is reasonably assured (deferred charges). Revenues and expenses appearing in the supplemental schedules of revenues and expenses – rate basis is presented in the same format as utilized in the Commission's operational budgeting and rate-setting process. The revenues and expenses shown on the statements of revenues and expenses are presented on a GAAP basis. Reconciliation between the revenues and expenses of these two operating statements for the year ended December 31, 2019, is provided below:

	Revenues	Expenses
As presented in the statements of revenues and expenses:		
Operating revenues/expenses	\$ 386,648,379	350,595,773
Investment income/interest expense	5,602,152	18,707,311
Total	392,250,531	369,303,084
Reclassifications and deferrals:		
Contributions to reserves	—	1,768,000
GAAP adjustments	(12,159,309)	(12,159,309)
Excess bond payments over depreciation and amortization	—	7,405,896
Interest expense (escrowed funds)	—	—
Investment income (escrowed funds)	(992,624)	—
Capital expenditures	—	15,469,203
Excess revenue used to offset current rates	558,206	—
Other deferrals	—	(2,819,623)
As presented in the supplemental schedule of revenues and expenses - rate basis	\$ 379,656,804	378,967,251

## BOSTON WATER AND SEWER COMMISSION

Notes to Financial Statements - Continued

December 31, 2019 and 2018

### (1) Organization, Basis of Presentation, and Summary of Significant Accounting Policies - Continued

The Enabling Act requires that any net surplus, as defined by the rate-setting process, be either turned over to the City or applied to offset water and sewer rates for the following year. The Commission has applied \$689,553 and \$558,206 for the years ended December 31, 2019 and 2018, respectively, to offset rates in the respective subsequent years.

#### (a) *Revenue Billings*

Water and sewerage fees are billed to users of the systems on a monthly-cycle basis. Revenues are accrued for periods between the termination of billings for the various cycles and the end of the year. Some adjustments are made on a post-billing basis that reduce the number of total billings. The total customer bills outstanding as of December 31, 2019 and 2018 were approximately \$30.2 million and \$24.7 million, respectively. These net billing amounts are reduced by an allowance for uncollectible accounts of approximately \$2.5 million and \$2.7 million in 2019 and 2018, respectively, and to arrive at the net accounts receivable. Charges for water and sewer services provided, but unbilled, at year end are estimated based on historical usage. The calculation is reduced by an allowance for the adjustment of approximately \$1.7 million in 2019 and 2018 to arrive at the net accounts receivable.

#### (b) *Investments*

Investments are stated at fair value. Fair value is based on quoted market prices.

The Commission categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles as prescribed by the GASB. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The Commission does not have any investments that are measured using Level 2 or 3 inputs as disclosed in Note 11.

#### (c) *Capital Assets*

Capital assets are stated at historical cost. Depreciation is provided on the straight-line method based upon the estimated useful lives of the various classes of assets. Maintenance and repairs are charged to expense as incurred. Major renewals or betterments over \$500 are capitalized and depreciated over their estimated useful lives.

The Commission capitalizes interest costs during construction of assets for its own use. No interest was capitalized in 2019 and 2018.

#### (d) *Compensated Absences*

Employees of the Commission accumulate unused sick time (subject to certain limitations) to be used later or a percentage paid in cash upon voluntary resignation and/or retirement from the Commission (subject to Commission policies and/or bargaining agreements). The liability for vacation leave is based on the amount earned but not used; for sick leave, it is based on a percentage of the amount accumulated at the statement of net position dates that would be paid to employees on termination. The liability for each amount is calculated based on the pay or salary rates in effect as of the date of the statement of net position.

**BOSTON WATER AND SEWER COMMISSION**

Notes to Financial Statements - Continued

December 31, 2019 and 2018

**(1) Organization, Basis of Presentation, and Summary of Significant Accounting Policies - Continued**

**(e) Business-Type Activity Accounting**

Business-type activity funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses result from providing services relating to ongoing operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

**(f) Depreciation**

The Commission provides for depreciation using the straight-line method. Estimated useful lives used in computing depreciation are as follows:

	<u>Years</u>
Water:	
Works	100
Meters	10
Hydrants	40
Sewerage:	
Works	75
Pumping station	35
Buildings	40
Other	4 to 14

**(g) Cash and Cash Equivalents**

The Commission considers all highly liquid, short-term cash investments with original maturities of three months or less to be cash equivalents for purposes of the statements of cash flows.

**(h) Deferred Inflows of Resources and Deferred Outflows of Resources**

Deferred inflows and outflows represent the consumption or acquisition of net assets applicable to a future reporting period. These are typically items of an asset or liability nature for which an exchange transaction is not inherent to their realization or liquidation.

**(i) Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Boston Retirement System (“BRS”), and the additions to/deductions from the Commission’s fiduciary net position have been determined on the same basis as they were reported by the BRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

## BOSTON WATER AND SEWER COMMISSION

Notes to Financial Statements - Continued

December 31, 2019 and 2018

### (1) Organization, Basis of Presentation, and Summary of Significant Accounting Policies - Continued

#### (j) *Other Postemployment Benefits ("OPEB")*

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB and OPEB expense, information about the fiduciary net position of the Boston Water and Sewer Other Postemployment Benefits ("OPEB") Trust (the "Plan"), and additions to/deductions from Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are generally reported at fair value.

#### (k) *Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions about future events. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as reported amounts of revenues and expenses during the reporting period. Management evaluates the estimates and assumptions on an ongoing basis using historical experience and other factors that management believes to be reasonable under the circumstances. Adjustments to estimates and assumptions are made as facts and circumstances require. As future events and their effects cannot be determined with certainty, actual results may differ from the estimates used in preparing the accompanying financial statements. Significant estimates and assumptions are required as part of estimating an allowance for doubtful accounts, depreciation, amortization, net pension and OPEB liabilities, and the recoverability of long-lived assets

#### (l) *Contributions in Aid of Construction*

Contributions in aid of construction ("CIAC") are additions and/or upgrades to infrastructure made by customers or developers that have been assigned to the Commission upon completion of the applicable project. Historically, CIAC has not been material to the financial statements and the contribution is not recorded. The Commission accepts the responsibility for the ongoing maintenance of CIAC.

#### (m) *Capital contributions*

Capital contributions consist of special grants or loan subsidies received from the Massachusetts Water Resource Authority ("MWRA") along with funds received from property owners and developers to assist the Commission in development of its infrastructure.

## BOSTON WATER AND SEWER COMMISSION

Notes to Financial Statements - Continued

December 31, 2019 and 2018

### (1) Organization, Basis of Presentation, and Summary of Significant Accounting Policies - Continued

#### (n) *New Government Accounting Pronouncements*

GASB Statement 83 – *Certain Asset Retirement Obligations (“AROs”)* is effective for periods beginning after June 15, 2019. An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. This Statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for AROs and requires that recognition occur when the liability is both incurred and reasonably estimable. Management has not completed its review of the requirements of this standard and its applicability.

GASB Statement 87, *Leases* is effective for periods beginning after December 15, 2020. Implementation of this standard will require lessees to recognize on their statement of net position the rights and obligations resulting from leases categorized as operating leases as assets, liabilities, or deferred inflows / outflows of resources. It provides for an election on leases with terms of less than twelve months to be excluded from this Standard. Management is in the process of evaluating this standard and has not yet determined its impact on the financial statements.

GASB Statement 88 – *Certain Disclosures Related to Debt, Including Direct Borrowings and Placements* is effective for years beginning after June 15, 2019. Implementation of this standard will require additional disclosures in the notes to the financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance-related consequences, significant termination events with finance-related consequences, and significant subjective acceleration clauses. Management has not completed its review of the requirements of this standard and its applicability.

GASB Statement 89 – *Accounting for Interest Costs Incurred before the End of a Construction Period* is effective for reporting periods beginning after December 15, 2019. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. Management has not completed its review of the requirements of this standard and its applicability.

GASB Statement 92 – *Omnibus 2020* is effective for reporting periods beginning after June 15, 2021. The objective of this Statement is to improve comparability in financial reporting for leases, pensions, OPEB, and asset retirement obligations. Management has not completed its review of the requirements of this standard and its applicability.

GASB Statement 93 – *Replacement of Interbank Offered Rates* is effective for reporting periods beginning after June 15, 2021. The objective of this Statement is to provide government entities relief with replacing or amending financial instruments for the purpose of replacing LIBOR, which is expected to cease to exist in December 2021. Before the implementation of this Standard, hedge accounting terminates if material terms are amended. Management has not completed its review of the requirements of this standard and its applicability.

**BOSTON WATER AND SEWER COMMISSION**

Notes to Financial Statements - Continued

December 31, 2019 and 2018

**(1) Organization, Basis of Presentation, and Summary of Significant Accounting Policies - Continued**

*(n) New Government Accounting Pronouncements - continued*

GASB Statement 96 – *Subscription-Based Information technology Arrangements (SBITA)* is effective for reporting periods beginning after June 15, 2022. The objective of this Statement is to provide accounting and financial reporting guidance for transactions in which a governmental entity contracts with another party for the right to use their software. A right to use asset and a corresponding liability would be recognized for SBITAs. Management has not completed its review of the requirements of this standard and its applicability.

**(2) Deferred Outflows of Resources**

Deferred outflows of resources represent the consumption of net assets by the Commission that are applicable to future reporting periods. Deferred outflows of resources have a positive effect on net position, like assets. In accordance with GASB 62, pension obligations will be recovered through future rates or matched against credits related to the specific costs in the future.

The following is a summary of deferred outflow of resources as of December 31,:

	<u>2019</u>	<u>2018</u>
Cost to be recovered through future revenues:		
Pension obligation	\$ 34,808,595	40,448,003
OPEB obligation	45,642,150	47,844,621
Pension related:		
Differences between projected and actual earnings on pension plan investments	-	10,211,013
Differences between expected and actual experience in the total pension liability	387,456	452,032
Changes in assumptions	3,077,370	3,692,844
Contributions made after the plan measurement date	734,972	1,650,000
OPEB related:		
OPEB related	1,448,552	-
Differences between projected and actual earnings on OPEB plan investments	-	1,600,013
Contributions made after the plan measurement date	747,500	2,650,000
Deferred loss on defeasance	<u>12,927,787</u>	<u>14,171,574</u>
Total:	<u>\$ 99,774,382</u>	<u>122,720,100</u>

**BOSTON WATER AND SEWER COMMISSION**

Notes to Financial Statements - Continued

December 31, 2019 and 2018

**(3) Deferred Inflows of Resources**

In accordance with GASB 62, certain revenues and expenditures that would otherwise be included in the statements of revenues and expenses, may be applied to future operations.

These items are identified on the statements of revenues and expenses as excess revenues used to fund reserves and other deferrals and are included on the statements of net position in deferred credits and reserves and are as follows for the years ended December 31,:

	<u>2019</u>	<u>2018</u>
Contributions to reserves	\$ 1,768,000	4,474,113
Principal payments on long-term debt	29,945,528	28,308,737
Interest paid from escrow funds	—	—
Capital expenditures	15,469,203	12,625,420
Depreciation and amortization	(18,754,445)	(15,591,459)
Investment income on project and escrow funds	4,408,405	(1,814,029)
Other	<u>(4,531,058)</u>	<u>4,014,407</u>
	\$ <u>28,305,633</u>	<u>32,017,189</u>

The components of deferred credits and reserves for the years ended December 31, have been designated as follows:

	<u>2019</u>	<u>2018</u>
Debt service	\$ 166,197,284	165,182,213
Capital improvements	599,935,510	567,876,295
Pension related	1,010,645	11,561,389
Differences between expected and actual experience - pension	2,235,600	2,794,500
Differences between expected and actual earnings on plan investments- pension	218,581	-
Change of assumptions - OPEB	231,098	-
Differences between expected and actual experience - OPEB	1,217,454	-
OPEB related	-	1,600,013
Working capital	(9,684,431)	(4,784,431)
Self-insurance	<u>2,240,000</u>	<u>2,240,000</u>
	763,601,741	746,469,979
Reduction of future Rates	<u>689,554</u>	<u>558,206</u>
Total	\$ <u><u>764,291,295</u></u>	<u><u>747,028,185</u></u>

**(5) Long Term Obligations - Continued**

**(a) Revenue Bonds - Continued**

Debt principal and interest maturities for future years as of December 31, 2019, are as follows (amounts in thousands):

	<b>Revenue bonds</b>	
	<b>Principal</b>	<b>Interest</b>
2020	\$ 23,710	21,474
2021	24,790	20,393
2022	24,005	15,408
2023	25,585	18,971
2024	26,400	17,644
2025-2029	123,785	67,869
2030-2034	94,345	45,537
2035-2039	80,275	29,190
2040-2044	68,820	14,547
2045-2049	25,520	2,561
	<b>\$ 517,235</b>	<b>253,595</b>

Amortization expense for losses on bond refunding and amortization income of bond issuance premiums which are recorded as interest for the years ended December 31, 2019 and 2018, totaled \$(3,131,283) and \$(3,250,705), respectively.

The Commission is required to maintain a Senior Debt Service Reserve Fund of an amount at least equal to the sum of the maximum amount of principal, or sinking fund payments, and interest due in the current or immediately succeeding year on the outstanding senior bonds issued as "fixed rate bonds", net of any accrued interest from the sale of any such bonds. As of December 31, 2019 and 2018, approximately \$47.3M and \$47.2M, respectively, has been deposited into the Senior Debt Service Reserve Account. This account is included with restricted cash and investments on the statements of net position.

During 2018, the Commission completed the issuance of \$78,400,000 General Revenue Bonds, 2018 Series A (the "Bonds"). The net proceeds of \$80,772,193 (after issuance costs of \$246,774, plus premium of \$2,618,967) were used to provide permanent financing for certain capital improvements previously financed by outstanding commercial paper; provide funding for other capital improvements; provide for a deposit to the Senior Debt Service Reserve Fund; and to pay the costs associated with the issuance of the Bonds. The Bonds have principal payable annually beginning November 1, 2020, through and including November 1, 2048.

**(b) Prior Year Debt Refunding (Defeasements)**

In the aggregate, \$253,815,000 and \$273,260,000 remains outstanding at December 31, 2019 and 2018, respectively, on bond issues that were defeased "in-substance" in prior years.

**(5) Long Term Obligations - Continued**

**(c) *Restricted Cash and Investments***

The Commission has established both trustee and nontrustee funds with investments, principally short-term securities, which are restricted for payment of specified liabilities, capital projects, or other costs of operations. The components of the trustee and nontrustee investments at December 31, are as follows:

	<u>2019</u>	<u>2018</u>
Trustee:		
U.S. Government agency obligations	\$ 129,438,484	148,501,070
Money market	53,191,104	35,981,961
Repurchase agreements	8,416,250	8,416,250
	<u>191,045,838</u>	<u>192,899,281</u>
 Nontrustee:		
U.S. Government agency obligations	1,466,178	2,594,196
Cash	44,693,635	50,540,220
Money market	219,581	353,773
Open-ended mutual funds	22,478,674	27,738,707
	<u>68,858,068</u>	<u>81,226,896</u>
 Restricted cash and investments	259,903,906	274,126,177
 Less nontrustee cash	<u>(44,693,635)</u>	<u>(50,540,220)</u>
Trustee and nontrustee investments	\$ <u>215,210,271</u>	<u>223,585,957</u>

**(d) *Long-Term Notes Payable***

The Commission has entered into various interest-free loan agreements with Massachusetts Water Resource Authority (the "MWRA"). Under these agreements, the Commission is required to repay these loans in annual installments as part of the MWRA's Infiltration/Inflow Local Financial Assistance Program (I/I), Pipeline Assistance Program ("PAP"), and System Assistance Program ("SAP"). These programs are designed to assist service area communities with sewer system rehabilitation.

Notes to Financial Statements - Continued

December 31, 2019 and 2018

**(7) Massachusetts Water Resources Authority**

The Commission obtains water supply and sewer treatment services from MWRA and is assessed a portion of the MWRA's actual operating and capital expenses. The assessment is based on the MWRA's fiscal year (July 1 to June 30), and payments are due to MWRA in ten equal installments excluding the months of January and July. Details of the MWRA assessments included in the statements of revenue and expenses at December 31, is as follows:

	<u>2019</u>	<u>2018</u>
Assessments based on:		
Water usage	\$ 92,082,863	88,328,954
Wastewater usage	<u>143,703,481</u>	<u>138,753,099</u>
Total	<u>\$ 235,786,344</u>	<u>227,082,053</u>

**(8) Transactions with the City of Boston**

Departments of the City of Boston were billed approximately \$5.4 million and \$4.2 million during 2019 and 2018, respectively, based on actual consumption.

The City provides services to the Commission, including paving and facilities rental. Operating costs billed to the Commission by the City were approximately \$1,198,000 and \$1,345,000 during the years ended December 31, 2019 and 2018, respectively, and capital costs billed by the City were approximately \$1,500,000 and \$1,700,000 during the years ended December 31, 2019 and 2018, respectively.

**(9) Pension Benefits**

*(a) Description of the State-Boston Retirement System Plan*

The Commission contributes to the Boston Retirement System ("BRS"), a cost-sharing, multi-employer qualified defined benefit public employee retirement system established under Chapter 32 of the MGL and a member of the Massachusetts Contributory Retirement System (the "System"). Under a cost-sharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits of the employees of any participating employer providing pension benefits through the plan, regardless of the status of the employers' payment of its pension obligation to the plan. The System provides retirement, disability, and death benefits to plan members and beneficiaries. Chapter 32 of the MGL assigns authority to establish and amend benefit provisions of the plan.

A complete set of financial statements for BRS for the fiscal year ended December 31, 2018 can be obtained through the BRS, Boston City Hall, Room 816, Boston, MA 02201 or by accessing the website [www.cityofboston.gov/retirement/investment.asp](http://www.cityofboston.gov/retirement/investment.asp).

## BOSTON WATER AND SEWER COMMISSION

Notes to Financial Statements - Continued

December 31, 2019 and 2018

### (9) Pension Benefits - Continued

#### (b) *Benefit Provisions*

Participation in the System is mandatory for all permanent, full-time, and certain part-time employees immediately upon the commencement of employment. Participants who resign from employment or are receiving workers' compensation benefits, and who are not eligible to receive a retirement allowance, are entitled to request a refund of their total contributions. In addition, those participants that resign voluntarily with less than ten years of service are entitled to receive 3% per year interest; all others receive interest which has accrued on their cumulative deductions at the regular interest rate (0.1% at December 31, 2019 and 2018).

Employees with ten or more years of service, having attained age 55, are entitled to pension benefits; an earlier retirement is allowed upon completion of twenty years of service. The System provides for retirement allowance benefits up to a maximum of 80% of a participant's highest consecutive three-year average annual rate of regular compensation (highest consecutive five-year average for those members who join the System on or after April 2, 2012). Benefit payments are based upon a participant's age, length of creditable service, level of compensation and group classification. Participants become vested after ten years of creditable service. Effective July 1, 1998, Chapter 32 of the MGL assigns authority to establish and amend benefits provisions and grant cost-of-living increases for the plan to the BRS.

If a member in service dies due to causes unrelated to his or her job, the surviving spouse and/or surviving dependent children may receive benefits based on the members length of service, contributions and age, either in a lump sum or in the form of an annuity. In the event there are no spouse and/or dependent children named, other beneficiaries may be entitled to a lump-sum distribution. Participants who become permanently and totally disabled from further duty may be eligible to receive accident or ordinary disability retirement benefits.

Accident disability is provided to members with incapacitation resulting from a work-related injury or hazard. Generally, annual pension benefits are provided based on 72% of the annual rate of regular compensation. Ordinary disability is available to any member whose permanent incapacitation is not work related and has completed ten years of creditable service. Such benefits are provided as if the member had attained the age of 55 (or actual age if over 55) based on the amount of creditable service earned. Limits are placed on how much an employee receiving disability benefits can earn from other sources while collecting a disability retirement pension.

**BOSTON WATER AND SEWER COMMISSION**

Notes to Financial Statements - Continued

December 31, 2019 and 2018

**(9) Pension Benefits - Continued**

**(c) Contributions**

Plan members are required to contribute to the BRS at rates ranging from 5% to 9% of annual covered compensation. The Commission is required to pay into the BRS its share of the remaining system-wide actuarially determined contribution accepted by PERAC plus administration costs, which are apportioned among the employers based on active covered payroll. The contributions of plan members and the Commission are governed by Chapter 32 of the MGL. The Commission's actual contributions to the plan for the years ended December 31, 2019, 2018 and 2017, amounted to \$3,166,395, \$7,507,131, and \$4,129,227, respectively, representing its contractually required contribution for each year along with additional funds to reduce the unfunded liability. Employer contributions, based on actuarially determined amounts, aggregated \$5,951,949, \$4,868,286 and \$4,667,585, or 16.8%, 13.7% and 13.4% of covered payroll in 2019, 2018 and 2017, respectively. At December 31, 2019 and 2018, the Commission has an immaterial net excess contribution to the pension plan which is covered by a payable of \$734,972 at December 31, 2019.

The Commission's funding policies have been established by Chapter 32 of the MGL. The Legislature has the authority to amend these polices. The annuity portion of the Commission's retirement allowance is funded by employees, who contribute a percentage of their regular compensation. Costs of administering the plan are funded out of plan assets. Member contributions vary depending on their date of membership:

<u>Hire Date</u>	<u>Percentage of Compensation</u>
Prior to 1975	5% of regular compensation
1975-1983	7% of regular compensation
1984 to 6/30/1996	8% of regular compensation
7/1/1996 to present	9% of regular compensation

**(d) Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources**

At December 31, 2019 and 2018, the Commission reported a liability of \$34.8 million and \$40.4 million, respectively, for its proportionate share of the net pension liability related to its participation in BRS. The net pension liability as of December 31, 2019 and 2018, the reporting date, was measured as of December 31, 2019 and 2018, respectively, the measurement date, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2018, rolled forward to December 31, 2019 and 2018, respectively. At December 31, 2019 and 2018 the Commission's proportion was 4.28%.

For the years ended December 31, 2019 and 2018, the Commission recognized pension expense of \$915,028 and pension income of \$150,000, respectively. The Commission follows the accounting standards set forth in GASB 62, and therefore provides for recovery of these pension liability costs as a deferred outflow of resources to be collected over the life of the liability to which it relates. At December 31, 2019 and 2018, the Commission reported deferred outflows of resources and deferred inflows of resources related to pensions as follows:

**BOSTON WATER AND SEWER COMMISSION**

Notes to Financial Statements - Continued

December 31, 2019 and 2018

**(9) Pension Benefits - Continued**

*(d) Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources - Continued*

	<u>2019</u>	<u>2018</u>
<u>Deferred Outflows of Resources</u>		
Contributions subsequent to the measurement date	\$ 734,972	1,650,000
Net difference between projected and actual earnings on pension plan investments	-	10,211,013
Net difference between expected and actual experience	387,456	452,032
Changes in assumptions	3,077,370	3,692,844
Total	\$ <u>4,199,798</u>	<u>16,005,889</u>
<u>Deferred Inflows of Resources</u>		
Net difference between projected and actual earnings on pension plan investments	\$ 218,581	-
Net difference between expected and actual experience	2,235,600	2,794,500
Total	\$ <u>2,454,181</u>	<u>2,794,500</u>

Contributions of \$734,972 and \$1,650,000 are reported as deferred outflows of resources related to pensions resulting from contributions in calendar years 2019 and 2018, respectively, after the measurement date, and will be recognized as a reduction of the net pension liability for the years ended December 31, 2019 and 2018, respectively.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as increases (decreases) in pension expense as follows:

<b>Years Ended</b>	
<b>June 30,</b>	
2020	\$ (17,678)
2021	354,772
2022	1,548,735

	<u>                    </u>
	\$ <u>1,010,645</u>

**BOSTON WATER AND SEWER COMMISSION**

Notes to Financial Statements - Continued

December 31, 2019 and 2018

**(9) Pension Benefits - Continued**

*(e) Actuarial Assumptions*

The total pension liability as of December 31, 2019 and 2018, was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.5%
Salary increases	4.5%
Investment rate of return	7.25%
Post-retirement cost of living adjustment	3% of first \$14,000

Mortality rates for pre-retirees, healthy retirees and disabled retirees were based on pre-retirement of RP-2014 Blue Collar Mortality Table projected generationally using Scale MP-2017 set forward 1 year for females.

The actuarial assumptions used in the valuations involve estimates of the reported amounts and assumptions about probability of occurrence of events far into the future. Amounts determined regarding the net pension liability are subject to continual revision as actual results are compared with past expectations and new projections are made.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future rates of return by the target asset allocation percentage.

Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of December 31, 2019, are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic equity	24.00%	6.15%
International developed markets equity	13.00%	6.78%
International emerging markets equity	8.00%	8.65%
Core fixed income	10.00%	1.11%
High-yield fixed income	15.00%	3.51%
Real Estate	8.00%	4.33%
Hedge fund, GTAA, Risk parity	17.00%	3.19%
Private equity	5.00%	9.99%
Total	<hr/> 100.00%	

**BOSTON WATER AND SEWER COMMISSION**

Notes to Financial Statements - Continued

December 31, 2019 and 2018

**(9) Pension Benefits - Continued**

*(e) Actuarial Assumptions - Continued*

Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of December 31, 2018 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic equity	23.00%	6.16%
International developed markets equity	16.00%	6.69%
International emerging markets equity	8.00%	9.47%
Core fixed income	21.00%	1.89%
High-yield fixed income	15.00%	4.00%
Real Estate	5.00%	4.58%
Hedge fund, GTAA, Risk parity	7.00%	3.68%
Private equity	5.00%	10.00%
Total	100.00%	

*(f) Discount Rate*

The discount rate used to measure the total pension liability was 7.25% for 2019 and 2018. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rates and employer contributions will be made at the actuarially determined contractually required rates. Based on these assumptions, the net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to changes in the Discount Rate

The following tables illustrates the sensitivity of the net pension liability, calculated using the discount rate of 7.25% for the years ended December 31, 2019 and 2018, respectively, as well as what the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower or one-percentage-point higher than the current rate:

<b>1.00% Decrease</b>	<b>2019 Current Discount Rate</b>	<b>1.00% Increase</b>
<u>(6.25%)</u>	<u>(7.25%)</u>	<u>(8.25%)</u>

**(10) Postemployment Benefits other than Pensions (OPEB)**

*(a) Plan Description*

The Commission sponsors and participates in a Other Postemployment Benefit ("OPEB") Trust plan, a single-employer defined benefit healthcare plan ("OPEB Plan"), that provides healthcare and insurance benefits to participating retirees and their beneficiaries. The OPEB Plan provides healthcare benefits to current and future retirees, and their dependents/beneficiaries in accordance with Massachusetts General Law Chapter 32B.

The OPEB Plan is administered by the Commission and does not issue stand-alone financial statements.

*(b) Benefits Provided*

Medical and prescription drug benefits are provided to all eligible retirees not enrolled in Medicare through a variety of plans offered by a variety of third-party insurers. Medical and prescription drug benefits are provided to retirees enrolled in Medicare through supplemental and Medicare Advantage plans offered by Blue Cross Blue Shield of Massachusetts, Harvard Pilgrim HealthCare, and Tufts Health Plan.

Groups 1 and 2 retirees, with at least 10 years or 20 years of creditable service, are eligible at age 55 or any age, respectively. Group 4 retirees with at least 10 years or 20 years of creditable service are eligible at age 45 or any age, respectively. Retirees on accidental disability retirement are eligible at any age, while ordinary disability requires 10 years of creditable service. The surviving spouse is eligible to receive pre and post retirement death benefits, as well as medical and prescription drug coverage.

Employer and employee contribution rates are governed by the respective collective bargaining agreements. The OPEB Plan is currently funded on a pay-as-you-go basis plus periodic advance funding contributions as amounts are available. The employers and plan members share the cost of benefits. As of December 31, 2017, the valuation date for both years ended December 31, 2019 and 2018, the plan members contribute 12.0% to 29.5% of the monthly premium cost, depending on the plan in which they are enrolled. The Commission contributes the balance of the premium cost. For the years ended December 31, 2019 and 2018, the Commission's average contribution rate was 11.82% and 17.77%, respectively, of covered-employee payroll. As of December 31, 2019 and 2018, the Commission has a payable to the OPEB Plan of \$658,749 and \$0, respectively, for legally required contributions.

Notes to Financial Statements - Continued

December 31, 2019 and 2018

**(10) Postemployment Benefits other than Pensions (OPEB) - Continued**

**(c) *Employees Covered by Benefit Terms***

As of the December 31, 2017, the date of the latest actuarial validation, plan participation consisted of:

Actives employees	401
Retirees and beneficiaries	<u>242</u>
Total	<u>643</u>

**(d) *Net OPEB Liability and Actuarial Assumptions***

The Commission's net OPEB liability of \$45,642,150 and \$47,844,621 was measured as of December 31, 2019 and 2018, respectively, and was determined by an actuarial valuation as of December 31, 2017. The total OPEB liability in the most recent actuarial valuation was determined using the following key actuarial assumptions applied to all periods included in the measurement, unless otherwise specified:

Payroll Growth:	3.00%
Salary Increases:	4.00%
Discount Rate:	6.50%
Investment Rate of Return:	6.50%

Health care trend rates for Medicare and non-Medicare are 6.75% decreasing by 0.5% for four years, and then by 0.25% for one year to an ultimate level of 4.5% per year. For Medicare Part B the valuation used a health care trend rate of 4.5% per year. Retiree contributions are expected to increase with health care trend rates.

The mortality rates for pre-retired participants is calculated using RP-2014 Blue Collar Employee Mortality Table projected generationally with Scale MP-2017 set forward 1 year for females. Mortality rates for retirees and disabled participants is calculated using RP-2014 Blue Collar Annuitant Mortality Table projected generationally with Scale MP-2017 set forward 1 year for females.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation subtracting expected investment expenses and a risk margin.

**BOSTON WATER AND SEWER COMMISSION**

Notes to Financial Statements - Continued

December 31, 2019 and 2018

**(10) Postemployment Benefits other than Pensions (OPEB) - Continued**

*(d) Net OPEB Liability and Actuarial Assumptions - Continued*

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<b>2019</b>	
	<u>Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic equity	30.00%	6.15%
International developed markets equity	21.00%	6.78%
International emerging markets equity	9.00%	8.65%
Core fixed income	20.00%	1.11%
Hedge fund, GTAA, risk parity	20.00%	3.19%
<b>Total</b>	<u>100.00%</u>	
Net difference between projected and actual experience	\$ 231,098	-
	<u>1,217,454</u>	-
<b>Total</b>	<u>\$ 1,448,552</u>	<u>-</u>
<u>Asset Class</u>	<b>2018</b>	
	<u>Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic equity	24.80%	6.16%
International developed markets equity	17.32%	6.69%

The discount rate used to measure the total OPEB liability was 6.50% as of December 31, 2019 and 2018. The OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investment was applied to all periods of projected benefit payments to determine the total OPEB liability.

**(11) Postemployment Benefits other than Pensions (OPEB) - Continued**

**(g) OPEB Expense and Deferred Outflows or Resources and Deferred Inflows of Resources Related to OPEB**

For the years ended December 31, 2019 and 2018, the Commission recognized OPEB expense of \$1,902,500 and OPEB income \$2,650,000, respectively. The Commission follows the accounting standards set forth in GASB 62, and therefore provides for recovery of these OPEB liability costs as a deferred outflow of resources to be collected over the life of the liability to which it relates. At December 31, 2019 and 2018, the Commission reported deferred outflows of resources and deferred inflows of resources related to OPEB as follows:

	<u>2019</u>	<u>2018</u>
<u>Deferred Outflows of Resources</u>		
Contributions subsequent to measurement date	\$ 747,500	2,650,000
Difference between projected and actual earnings on OPEB plan investments	-	1,600,013
Total	\$ <u>747,500</u>	<u>4,250,013</u>
<u>Deferred Inflows of Resources</u>		
Change in assumptions		
Net difference between projected and actual experience	\$ 231,098	-
Total	\$ <u>1,448,552</u>	<u>-</u>

The Commission's 2019 and 2018 contributions of \$747,500 and \$2,650,000, respectively, reported as deferred outflows of resources related to OPEB resulting from Commission contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the following year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Years Ending

Notes to Financial Statements - Continued

December 31, 2019 and 2018

### (12) Deposit and Investment Risks

#### (a) *Custodial Credit Risk*

Custodial credit risk is the risk that in the event of bank failure, the Commission's deposits may not be returned. Certain of the Commission's deposits are fully insured by FDIC insurance or collateralized with securities held by the Commission or the Commission's agent in the Commission's name. The Commission does not have a formal policy for managing custodial credit risk of deposits. As of December 31, 2019, and 2018, the cash balances of uninsured and uncollateralized deposits totaled \$53,410,685 and \$36,335,734, respectively. All the Commission's investments are held by a third party in the name of the Commission.

#### (b) *Investment Policy*

Investment of Commission funds is governed by federal and state laws and is restricted to permitted investments as defined by the Commission's General Revenue Bond Resolution and Supplemental Resolutions. Revenues generated from the investment of Commission funds reduce the amount the Commission must charge to its customers, while any investment losses would negatively affect the Commission's general rates and charges. Consequently, the Commission adheres to an investment policy that will maintain a fully invested, diversified portfolio with the objective of achieving the highest yield that is attainable in conjunction with a very low risk of loss of capital. The basic criteria that will be used in making investment decisions includes the evaluation of risk/reward tradeoffs, historical price spreads between different securities, the slope of the yield curve and the anticipated cash flows of the different investment accounts of the Commission.

Current permitted investments under the General Revenue Bond Resolution include:

1. Any bond or other obligation to which principal and interest are unconditionally guaranteed by the United States of America.
2. Any bond or other obligation of any state, agency or local government unit of any state which are:
  - A. Noncallable.
  - B. Fully collateralized by funds consisting of cash, bonds or obligations of one of the above.
3. Public Housing bonds secured by the United States of America, certain notes issued by public agencies or municipalities fully secured by the United States of America or obligations issued by State or public agencies or municipalities carrying the highest bond rating.
4. Obligations of any state to which the full faith and credit of the state is pledged and are within the two highest bond ratings.
5. Prime Commercial Paper rated A – 1 or P – 1.
6. Shares of money market funds that are open ended and rated A or better, or money market funds of banks meeting specific criteria.

**BOSTON WATER AND SEWER COMMISSION**

Notes to Financial Statements - Continued

December 31, 2019 and 2018

**(12) Deposit and Investment Risk - Continued**

**(b) Investment Policy - Continued**

7. Certificates of Deposit issued by banks insured by the FDIC, which are fully secured by obligations described in 1 or 2 above.
8. Repurchase Agreements fully collateralized by obligations described in 1 or 2 above.
9. Futures contracts traded on an exchange for investments described in 1, 2, 3, and 4 above.
10. Investments in commercial paper cannot exceed \$15 million per issuance.

Further, all investments of the Commission are held in the Commission's name by a third party.

**(c) Interest Rate Risk**

The Commission's guidelines do not specifically address limits on maturities as a means of managing its exposure to fair value losses arising from changing interest rates. The following is a listing of the Commission's fixed income investments and related maturity schedule (in years) as of December 31,:

<b>2019</b>					
<b>Investment type</b>	<b>Fair value</b>	<b>Less than 1</b>	<b>1 – 5</b>	<b>6 – 10</b>	<b>More than 10</b>
U.S. Government agencies	\$ 130,904,662	83,312,031	7,876,168	15,991,903	23,724,560

**BOSTON WATER AND SEWER COMMISSION**

Notes to Financial Statements - Continued

December 31, 2019 and 2018

**(12) Deposit and Investment Risk - Continued**

**(d) Credit Risk**

The Commission follows its investment policy listed above in regard to the credit worthiness of its investments. The Commission's fixed income investments as of December 31, 2019 and 2018 were rated by Standard and Poor's rating scale and/or an equivalent national rating organization, and the ratings are presented below using the Standard and Poor's rating scale:

<b>2019</b>				
<u>Investment type</u>	<u>Fair value</u>	<u>AAA</u>	<u>AA</u>	<u>Not rated</u>
U.S. Government agencies	\$ 130,904,662	107,180,102	—	23,724,560
Guaranteed investment contract	8,416,250	—	—	8,416,250
Money market	53,410,685	—	53,410,685	—
Open ended mutual funds	22,478,674	22,478,674	—	—
	<u>\$ 215,210,271</u>	<u>129,658,776</u>	<u>53,410,685</u>	<u>32,140,810</u>

  

<b>2018</b>				
<u>Investment type</u>	<u>Fair value</u>	<u>AAA</u>	<u>AA</u>	<u>Not rated</u>
U.S. Government agencies	\$ 151,095,266	131,479,943	—	19,615,323
Guaranteed investment contract	8,416,250	—	—	8,416,250
Money market	36,335,734	—	36,335,734	—
Open ended mutual funds	27,738,707	27,738,707	—	—
	<u>\$ 223,585,957</u>	<u>159,218,650</u>	<u>36,335,734</u>	<u>28,031,573</u>

As of December 31, 2019, and 2018, the Commission had \$23,724,560 and \$19,615,323, respectively, of unrated investments that are explicitly guaranteed by the U.S. Government.

The Commission's investment policy does not offer specific limitations in regard to the concentration of risk, except that a single investment in commercial securities cannot be more than \$15 million. The Commission has individual investments that at fair value exceed 5% of the total investments balance at December 31, 2019 and 2018. Individually these investments in money market funds range between \$11 million and \$20 million for 2019 and \$11 million and \$19 million for 2018. In the aggregate, they approximate \$63 million and \$55 million for the years ended December 31, 2019 and 2018, respectively.

## BOSTON WATER AND SEWER COMMISSION

Notes to Financial Statements - Continued

December 31, 2019 and 2018

### (13) Commitments

The Commission has an ongoing Capital Improvement Program. In connection therewith, the Commission has entered into various contracts for the design and construction of its infrastructure. Commitments under these contracts aggregate approximately \$55.9 million as of December 31, 2019.

The Commission has committed to capital improvement projects of approximately \$160.8 million for 2020 through 2021, which are primarily related to enhance the operation of the water and sewer system, including reducing pollution to Boston Harbor and neighboring waterways. Of this amount, approximately \$125.0 million represents extension and improvement projects and \$35.8 million represents renewal and replacement projects. The extension and improvement projects will be 25% funded by federal, state and Massachusetts Water Resources Authority grants and loans. The remainder will be funded from the Commission's operating revenues and borrowings, as needed.

### (14) Risk Management and Other Insurance

The Commission is completely self-insured for unemployment benefits. The Commission's worker's compensation is self-insured with a self-insured retention of \$750,000 per accident, supplemented with excess coverage at statutory limits purchased through an outside carrier. For general liability the Commission's self-insured retention is \$1 million per occurrence and is supplemented by \$10 million of excess coverage. Under the sections of the Model Water and Sewer act, the Commission's maximum tort liability is \$100,000 per claimant.

The Commission maintains other insurance coverage as follows:

<u>Policy type</u>	<u>Coverage</u>
Automobile Liability	Combined single limit of \$1 million/accident, supplemented with excess coverage of \$10 million.
Property	Aggregate limit of \$250 million blanket building and contents per occurrence with a \$25,000 deductible each occurrence on most perils.
Public Officials	Coverage of \$5 million each act, \$6 million aggregate; \$500,000 self-insurance retention each claim.
Employment Practices	Coverage of \$5 million annual aggregate via layered policies; \$500,000 self-insurance retention each claim.
Fiduciary	\$5 million annual aggregate; with \$10,000 deductible each claim.
Crime	Employee dishonesty coverage of \$5 million, with \$25,000 deductible each loss.
Cyber Risk	\$4 million annual aggregate with \$50,000 deductible each claim.

A single insurance claim has exceeded coverage by a material amount in the past three years.

Liabilities for self-insured claims are reported if it is probable that a loss has been incurred and the amount can be reasonably estimated. The Commission has established a liability reserve based on historical trends along with attorney's and independent insurance reserve appraiser's estimate of pending matters and lawsuits in which the Commission is involved.

**BOSTON WATER AND SEWER COMMISSION**

Notes to Financial Statements - Continued

December 31, 2019 and 2018

**(14) Risk Management and Other Insurance - Continued**

Changes for the years ended December 31, are as follows:

	<u>2019</u>	<u>2018</u>
Beginning balance of reserves	\$ 1,445,682	1,195,734
Payment of claims attributable to events of both current and prior years:		
Workers' compensation	-	-
General liability	940,332	736,882
Incurred claims	<u>(698,504)</u>	<u>(486,934)</u>
Ending balance of reserves	\$ <u>1,687,510</u>	<u>1,445,682</u>

**(15) Contingencies**

**(a) Legal**

The Commission is involved in ordinary and routine litigation and other matters related to its operations and the establishment of rates. Management believes that the resolution of these matters will not materially affect the financial position of the Commission.

The Commission has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. The Commission believes such disallowances, if any, will not be significant.

**(b) Pollution Remediation Obligations**

GASB Statement No. 49, *Accounting and Financial Reporting by Employers for Pollution Remediation Obligations*, requires governments to reasonably determine potential polluted sites and provide guidance to recognize Pollution Remediation Obligations ("PRO") components as liability. The Commission evaluated their pollution remediation events and determined that the PRO liability as of December 31, 2019, as well as, the PRO payments made during 2019 and 2018 were not material to the Commission's financial statements.

**(c) Environmental Protection Agency**

During 2012, the Commission entered into a consent decree with the Conservation Law Foundation, Inc. ("CLF") and the United States Environmental Protection Agency in settlement of a suit originally brought by the CLF alleging violations of the Commission's National Pollution Discharge Elimination System Permit. The consent decree required the Commission to pay approximately \$374,000 of penalties and reimbursed legal fees and established goals. Failure to meet these goals will subject the Commission to penalties calculated on a daily basis until the goal is achieved. The decree also calls for other payments if the Commission does not meet specific expenditure levels. For 2019, the Commission believes they have achieved the goals set forth in the decree. In accordance with GASB 49, the achievement of these goals is a part of the Commission's ongoing operations and is not accrued as a PRO.

## **BOSTON WATER AND SEWER COMMISSION**

Notes to Financial Statements - Continued

December 31, 2019 and 2018

### **(16) Subsequent Event**

In March 2020, the Governor of Massachusetts declared a state of emergency and ordered all non-essential governmental agencies to temporarily cease due to the COVID-19 outbreak. The operations of the Commission were deemed essential and water services were continued to be offered to customers. Management expects that their operations will be affected by the crisis. Management also anticipates the volatile nature of the stock market and interest rates may have a potential impact on investment earnings of both the Commission as well as the pension and OPEB trusts. However, management cannot reasonably estimate the duration or the financial impact of the crises. Management expects that their operations will be negatively affected by the crisis, as many organizations that used the Commissions services temporarily closed.

Boston Water & Sewer Commission  
Boston, Massachusetts

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Boston Water and Sewer Commission (the "Commission") as of and for the years ended December 31, 2019 and 2018, and the related notes to the financial statements, which collectively comprise the Commission's basic financial statements, and have issued our report thereon dated August 3, 2020.

### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Commission's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control. Accordingly, we do not express an opinion on the effectiveness of the Commission's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Commission's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

*O'Connor + Drew, P.C.*
