

## East Boston Sewer Separation Phase 3 Project Update

### **BWSC Contract: 19-309-002**

#### **PURPOSE**

East Boston Sewer Separation Phase 3 is a continuation of both Phases 1 and 2 and involves the separation of the combined sewer system into a new sewer system and new drain system. This project will reduce pollution levels in Boston Harbor by substantially decreasing the number and volume of combined sewer overflows. This project will also include some water main replacement work as well. The purpose of this notice is to provide information regarding the ongoing improvements in your neighborhood and any necessary impacts or disruptions that might result from this work.

#### **ONGOING WORK**

- **Sumner Street:** Cottage Street to Lamson Street
  - Install 700 LF of storm drain
  - Install 830 LF of water main

**Projected Completion: August 2023**

- **Sumner Street:** Havre Street to Maverick Square
  - Install 310 LF of storm drain
  - Install 600 LF of water main

**Projected Completion: August 2023**

#### **UPCOMING WORK**

- **Maverick Street:** Cottage Street to Orleans St.
  - Separate 1,475 LF of combined sewer
  - Replace 900 LF of water main

**Projected Start: August 2023**

#### **ANTICIPATED IMPACTS**

The anticipated impacts include water service interruptions, noise, traffic and parking modifications, rodent activity, dust, and general construction impacts. The contractor will be required to minimize impacts to the extent feasible.

#### **SURFACE RESTORATION**

Temporary restoration of roadways, sidewalks and other areas disturbed by construction will be completed under this contract. Permanent paving restoration will occur under a separate contract.

#### **Typical Sewer Separation Project**

#### **Questions or Comments on this project should be directed to:**
