

STORMWATER CREDIT APPLICATION

For Protected Land Credit

Credit up to **50%** for customers who take actions on their property that reduce their demand on BWSC's stormwater system. The following requirements must be met:

- Protected land status (documentation required).
- Parcels must have greater than 1 acre of impervious area.
- Property owner must provide documentation to prove that less than 10% of their stormwater runoff discharges to BWSC's system.
- Landscaping must be maintained so that the property remains clear of any leaves and debris.
- No fertilizers can be used on the property.

Partial Credits will not be granted. Please fill out the required fields.

Section A Applicant/Account Information

Customer Name: _____

Property Address: _____

Mailing address (if different than above): _____

Parcel/Account Number: _____

Email: _____

Phone: _____ Structure Type: _____

Section B**Professional Engineer Certification**

If you are applying for a Protected Land credit, please provide an engineer's report that verifies and provides details on the parcel mentioned in Section A above.

As a Professional Engineer, I hereby certify that the conditions noted above are met and satisfy BWSC requirements. I also certify that any attached engineer report and supporting documents and calculations are an accurate representation of the current site conditions.
