### **Project Summary:**

Work under this contract includes approximately 2,500 linear feet of sewer and drain replacement, 4,000 linear feet of sewer and drain rehabilitation, and 9,200 linear feet of water main replacement throughout Beacon Hill and City Proper. This project serves to update and improve critical aging infrastructure and will provide high quality drinking water and sewer service throughout the area. Anticipated impacts of the work include construction noise, dust, and traffic/parking modifications. Water service interruptions may be required, and any affected properties will be notified in advance. All roadway and sidewalk excavations will be temporary restored immediately following the work; permanent restoration will occur under a separate future contract.
