

**BOSTON WATER & SEWER COMMISSION**  
**EAST BOSTON SEWER SEPARATION PROJECT**  
**Contract No. 21-309-002**  
**CWSRF NO. 16690**

## WHAT IS THE EAST BOSTON SEWER SEPARATION PROJECT?

The Boston Water and Sewer Commission's (the Commission) East Boston Sewer Separation Project involves separating the combined sewer system in East Boston. The purpose of this project is to separate the combined sewer system by installing new sewer and drain pipes. This will improve water quality by reducing the number and volume of Combined Sewer Overflows (CSOs). The separation project is being undertaken by the Commission in association with the Massachusetts Water Resources Authority (MWRA).

## UPCOMING WORK

In coordination with project abutter Channel Fish Co., the project contractor will be performing night work at the intersection of East Eagle Street and Eagle Square, starting the week of December 15th. This work will take place on Monday through Friday between 7PM and 3AM. In addition, parking restrictions may be in place along the work zone. Construction noise and dust may impact abutters. Pest control measures will be in place.

**No Parking** signs will be placed 48 hours in advance of any work, and messaging boards will be in place sharing the most up to date closure information.
